1. The Vehicle Finder module, found on the homepage, is a great place to start if you have a specific vehicle in mind.
2. Quick Picks on the homepage offer popular searches for Vehicle Types, Makes and Featured Items.

## Filtering a Search, Saved Search or Watchlist

Filtering has been tremendously enhanced on the new website. The filtering and sorting functionality is consistent when navigating Sale Lists, specific search results sets and the Watchlist.

Depending on what you're searching for, the filter options will be different.

Here's a sample search: 2000 Chevrolet Blazers that are 'No License Required' and 'Runs and Drives.'

1. Select 'Chevrolet' from the Make option on the Vehicle Finder page.
2. Apply filter for 2000.
  - a) Click on the 'Year' filter option. Scroll through the filter pop up until you've found what you're looking for. Apply the filter by checking it and then selecting 'Apply Filter'.
3. Your search will configure itself to only show Chevrolets from 2000.
4. Apply filter for Blazer.
  - a) Click on the 'Model' filter option. Scroll to find the right model. Apply the filter by checking it and then selecting 'Apply Filter.'
5. Your search will configure itself to only show Chevrolet Blazers from 2000.
6. Apply filter for No License Required.
  - a) Click on the 'Miscellaneous' filter option to find No License Required. Scroll to find the right filter. Apply by checking it and then selecting 'Apply Filter.'
7. The search will only show the filters you've applied.

The image shows three screenshots of the filter options for a search. The first screenshot shows the "Make" filter with "Chevrolet (11,283)" selected. The second screenshot shows the "Choose Your Filter Options" for the Year filter, with "2000 (277)" selected. The third screenshot shows the "Choose Your Filter Options" for the Miscellaneous filter, with "No License Required (15)" selected. Red arrows point to the selected options in each screenshot.

**HINT:** Looking to remove a filter? At the top of the page just click the "X" on the filter or the "Clear All" from the filter options. For example, if you're now only interested in Chevrolet Blazers that are "No License Required," Click the "X" to the right of 2000.

**HINT:** Looking for Excel spreadsheet downloads? Select the option to 'Download Search.'

## Joining Auction

1. Sign in to your account.
2. Click on the black 'Auctions' tab in the header.
3. Scroll through the list of auctions to find the one you would like to join.
 

**HINT:** Click 'View Sale List' on the right side underneath the 'Join Live Auction' button of any auction to see a complete list of vehicles being sold in that particular auction.
4. Once you've decided which auction you would like to join, click the blue 'Join Live Auction' button located directly to the right of that auction's 'Items' segment.
5. You will then be directed to the live auction where you can watch sales, place bids and win vehicles.

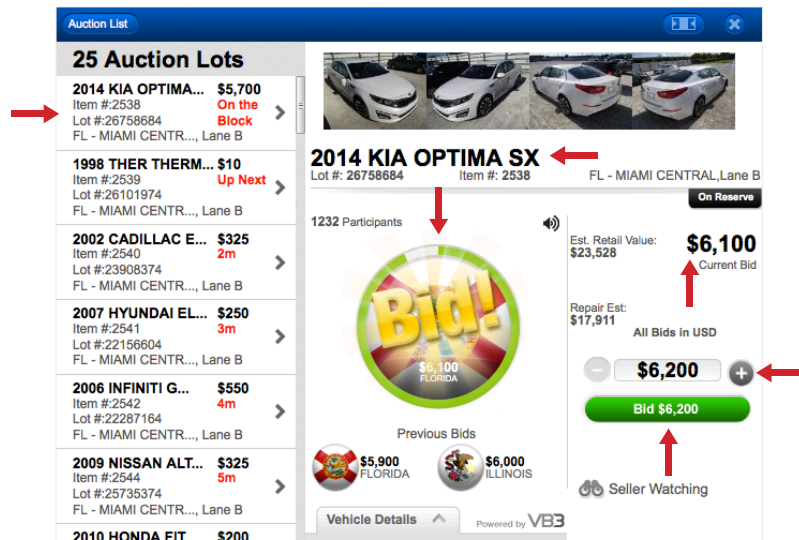

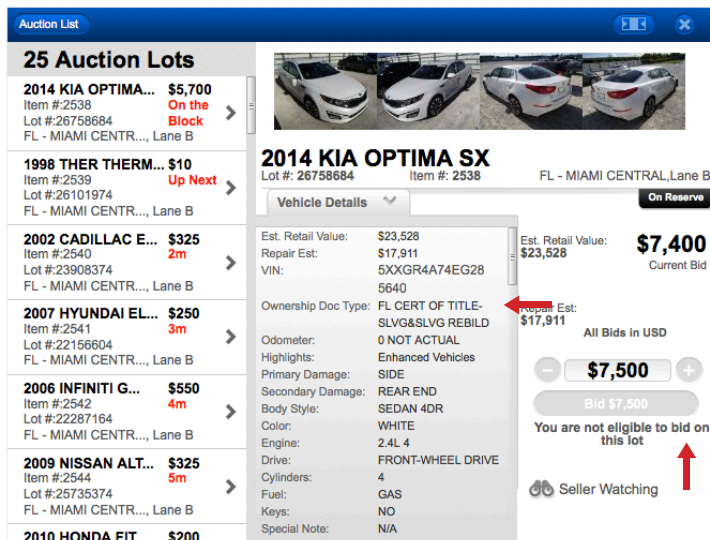

## Bidding and Joining Multiple Auctions

### Bidding:

1. Once you are signed in and have joined a live auction, you may start bidding on vehicles.
  - a) Many vehicles require specific licenses to bid on them. If you do not have those licenses you must use a broker in order to bid on those particular vehicles.
  - b) If you are not a Premier Member, you must have a deposit on file of at least 10% the maximum bid you plan on placing.
  - c) If you do not have a large enough deposit on file or the necessary licenses, underneath the bid button it will state, "You are not eligible to bid on this lot."
2. On the left side of the auction screen, you'll see the list of lots in the Auction. They will be in the order of which they are being sold.
 

**HINT:** You may click on any one of these vehicles from the list at any time to view its description and images.
3. In the middle of the auction screen you will see the images and title for the vehicle that is currently being auctioned. A timer (in the former of a ring) will be constantly winding down to show how much time is left to bid on that vehicle. The timer starts over every time a bid is placed and when it runs out, no more bids can be placed for that vehicle.
4. On the right side of the auction screen you'll find the current bid price. Underneath that is where you will place your bids. You will see a price surrounded on either side by '-' and '+' buttons. Click on these buttons to increase or decrease your bid. Whenever you're satisfied with the price of your bid, click on the 'Bid' button directly beneath your price. This will submit your bid to the auction.

## Joining Multiple Auctions:

1. In order to join multiple auctions, you must be a Premier Member.
2. If you have a Premiere Membership, you will click the large, gray rectangle button next to the auction screen that says '+ Add Auction'.
3. A list of all auctions will appear. Find the next auction you'd like to join from that list and click on that row.
4. Now you will have two live auctions on your screen and can bid in both of them simultaneously.
  - HINT:** Click the screen minimizer in the top right corner to shrink each auction screen.
5. You can watch up to 16 auctions at a time. Just repeat these steps to add more auctions to your screen.

This screenshot shows the Copart website interface with 10 auction lots listed. A large, semi-transparent gray button with a white plus sign and the text "Add Auction" is positioned on the right side of the page. A red arrow points from the right edge of the image towards this button.
